

Treat Depression. Differently.

Provide your patients with an effective¹ depression treatment without the side-effects from antidepressants².

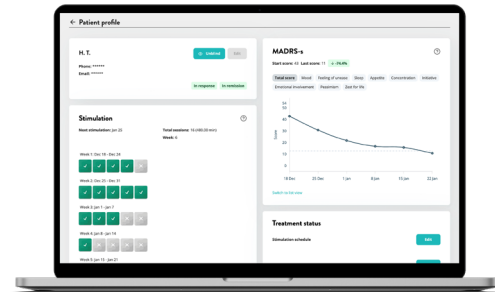

FLOW
NEUROSCIENCE

Flow is the first clinically-validated, at-home, tDCS depression treatment designed for your patients and your practice

Patients:

Personalised, at-home treatment that starts in days, not weeks

Clinicians:

Full visibility into patient adherence and response with ability to customise

Helping to transform patient and clinic outcomes

Spend time where it matters most

- Onboard patients in 10 minutes
- Streamline patient visits with remote monitoring insights

Add choice and flexibility

- Access to patient adherence and progress data anytime, anywhere
- Standalone or augment with existing treatment plans

Grow your business

- Extend services to more patient groups including treatment-resistant
- Unlock savings of £2000 per patient per year

In a recent clinical trial, over half of Flow patients were depression-free at ten weeks³

No serious adverse effects were reported.

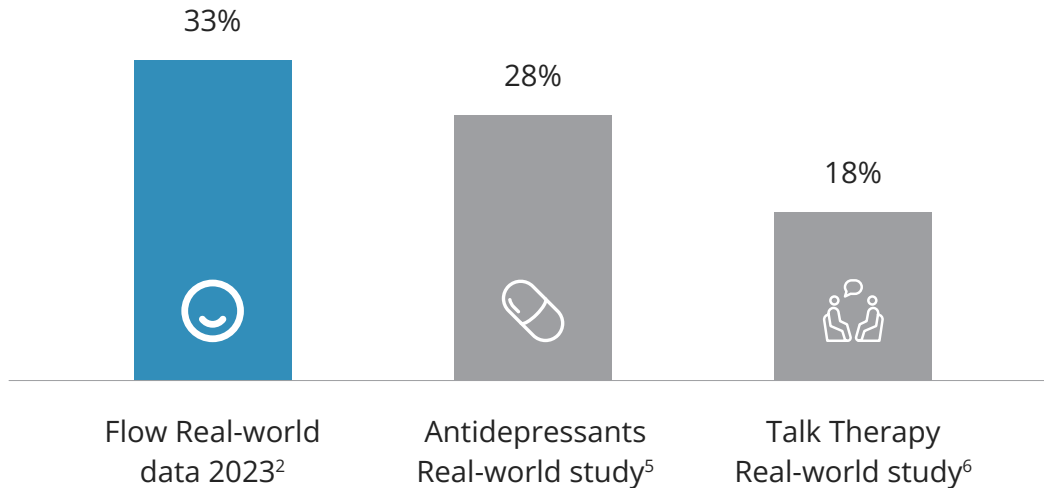

**Measured using MADRSs, $p < 0.025$

Outperforming 21 of the best-selling antidepressants^{3,4} in standardised measures for comparing clinical trials

Analysis of Flow's 12,000+ users demonstrates that Flow also outperforms existing treatments in the real world

% of Patients in Remission following treatment

Flow supports across all age groups and stages in the depression life cycle

"Adherence is easy. My symptoms have been less the past month... and I really enjoy learning about the whys and effects of depression"

- Female, age 20

"I didn't want to be on medication forever, so was researching how to lower the dosage and found an article on Flow. At first it seemed too good to be true... I've had no side effects... gives me the confidence to come off the medication"

- Male, age 40

"I've tried every therapy you can think of... and all the mindfulness and guided meditation apps... Flow is brilliant... I'm really pleased, and singing praises to everyone. I've used it for 6 months... I have no plans to stop using it."

- Female, age 62

"I've had depression my whole life... Antidepressants - they're poison. Flow is almost too good to be true - it's easy, well designed, exciting... this could be the next thing."

- Male, age 71
